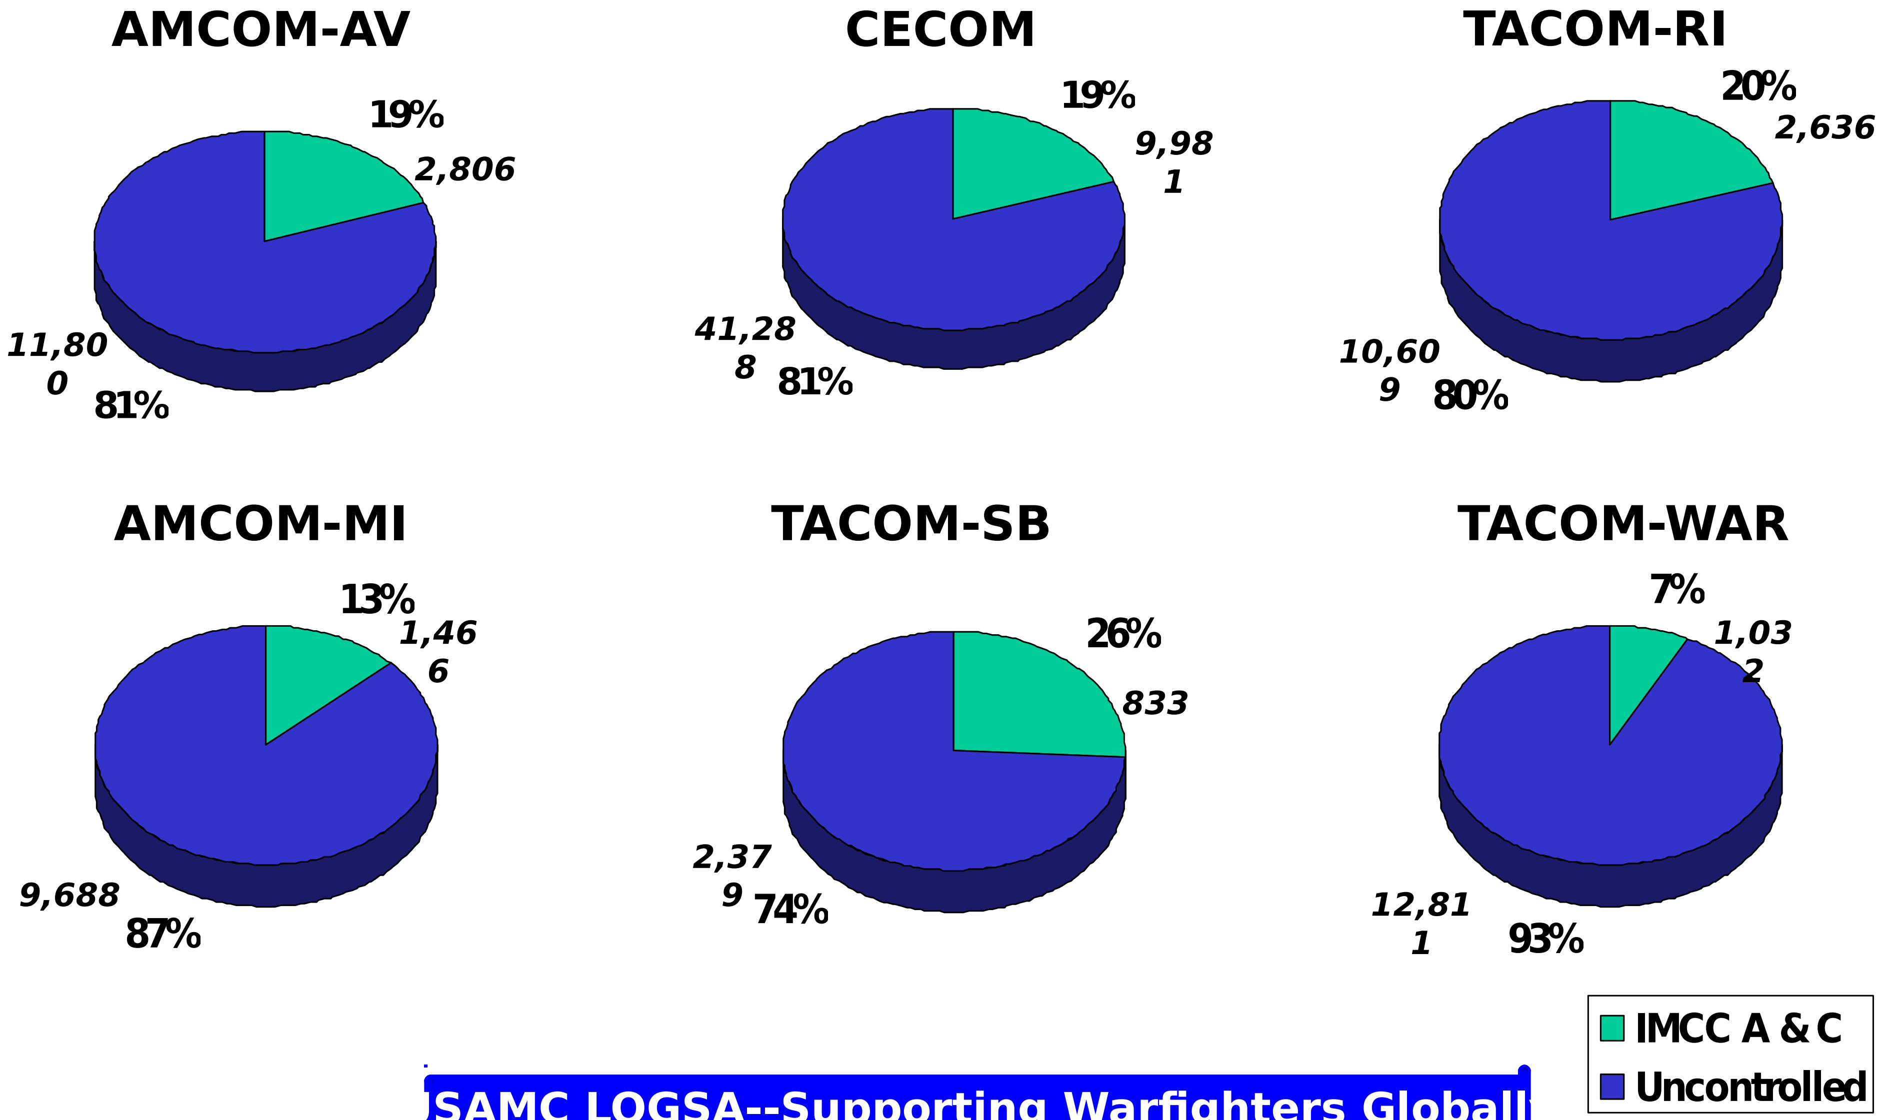
IMCC A and C vs. Online Processing Secondary Items Managed by ICP – Dec 04



USAMC LOGSA--Supporting Warfighters Globally

Dec 04 data as of 04 Jan 05

Breakout of Controlled Items

	IMCC "A"	IMCC " C"
AMCOM-A	1,630	1,176
AMCOM-M	1,328	138
CECOM	9,981	0
TACOM-W	263	769
TACOM-R	2,129	507
TACOM-SB	680	153

IMCC "C" requisitions are run thru the Control Item Logic File (CLF). CLF is an IMMC tool that facilitates automatic processing. CLF completes processing for many "C" coded items based on parameters placed in the CLF, e.g., designated DODAACs, priorities, quantities, etc. Only requisitions not meeting CLF parameters will ever kick off-line for processing.
